

I listen to K-Love on 105.5 & 89.1 FM. I 2 small children who sleep to K-Love. That is how much I trust their family-oriented programming.

We hear of local concerts & events on K-Love that I can trust my entire family can participate in. And not just events, but meetings, shows, things for children to do. I also hear news that effects not only the country but my state as well.

Please don't take away the one radio station that is a positive influence for our entire family.

Thank you for listening.
